

Natalie Lewis and Her dogs

Natalie Lewis has been training dogs since she was 4 years old, maybe younger. Her mother remembers her dressing up their German Shepard in circus outfits and training him so she could put on a show for the family. This love for training and performing has grown with her as her talents have evolved. She has been training professionally since she was sixteen.

In 2005, Natalie moved to Youngsville, NC to teach for [Michele Godlevski](#), one of the most respected positive trainers in the area, at Teamwork's Dog Training. Natalie learned many things while she was gone and many new techniques that she is excited to share with her new and former students in Greensboro, NC. "I not only sharpened my teaching skills with Agility, but also excelled in Flyball, Tracking, and Obedience. My exposure to many different dogs with different temperaments has helped me to read a dog's body language well."

Natalie not only trains many types of dogs, but proves their skills as well. She has competed with her 3 dogs as well as others. Although her passion lies in Agility and she has worked with nationally known agility competitors, she has had formal training in Obedience, Flyball, Tracking, Lure Coursing, Herding, and Earthdog. We are excited to have her share her skills at our facility.
